

Bring your agency into the next Level of web solutions

QUALITY SOLUTIONS

Our program offers quality web solutions developed for independent insurance agencies like yours, without costing your agency a fortune.

OUR FOCUS

To provide quality and helpful solutions to our independent agents at an affordable cost.

To provide solutions that aid the agency to make money using the web as tool.

To educate the independent agency with today's web technologies.

To continue to grow and offer quality web solutions to small independent agents at an affordable price.

We have worked closely with smaller independent agencies to get their feedback, so that the solutions we offer are going to benefit the small independent agent.

- **Professional Pre-Designed Themes**

We have developed a number of professional looking themes to help your agency look its best. These themes will be tailored to match your agency's brand colors and feel.

- **Fully Customized Graphics**

Our in-house design staff will setup your new site design by integrating your logo, matching your colors and even including your slogan. This will make your site as unique as your agency.

- **Upload Images, Flash, Videos, Music**

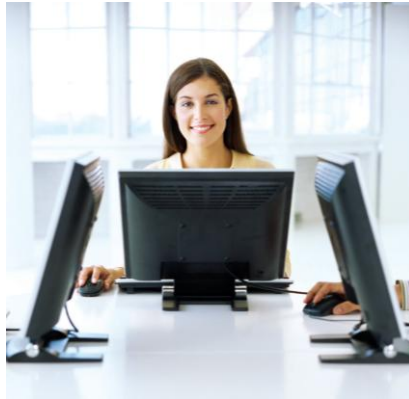

Any type of media can be easily incorporated into your site to provide added information or to simply make your site more attractive, inviting and memorable.

As a smaller, independent insurance business, some of you may feel you have fallen behind the large companies technologically, or in the level of e-service you can provide for your clients. You may be unable, or even unwilling to fork over the thousands of dollars that they do to build and support websites that effectively market their businesses and serve their clients' needs instantly and efficiently. That is why we are here. We at VIVIOSOFT have created accuBenefits, an easy-to use web-based service for you and your clients that will put you on a technologically level, if not superior, playing field with your larger competitors while providing an unmatched level of service and convenience, all at a monthly cost less than your cell phone bills!

VIVIOSOFT, as a company has been engineering web-based solutions for businesses for over 10 years. We are, as are all of you, PIA members and a local company based in nearby Mt. Vernon, Ohio. accuBenefits is a new service we have designed and created to specifically address the needs of the independent insurance agent. Our goal is to help you further provide the best in personalized, immediate, custom service for your clients and staff that will help your business grow and prosper. In doing so, we will also grow. The personal service you provide your clients is your business. Today, people are expecting more of "get it now!" and less waiting. Our world is changing and how we conduct our business must also change.

A service-oriented relationship you will not find anywhere else

Service Features and accuBenefits

We offer numerous features that come standard in the accuBenefits program. There are no additional fees or costs. If the cost or fee isn't listed here than don't expect to pay for it!

- ❖ Website Admin Dashboard
- ❖ Search Engine Optimized Site
- ❖ Mobile Phone Access
- ❖ Google Analytics
- ❖ Customizable Navigation
- ❖ News / Blog Feeds
- ❖ Content Evaluation Control
- ❖ Unlimited Hosting and E-Mail
- ❖ Predefined Content
- ❖ Social Networking Links

Once you have enrolled in the accuBenefits program, you have access to the **accuBenefits Member Community** which provides you with a number of support features including the following.

- ❖ Online Training Videos
- ❖ accuBenefits News
- ❖ Phone Support
- ❖ Online Help Forum
- ❖ E-Mail Ticket Support
- ❖ New Element Voting

accuBenefits' Elements

accuBenefit Elements are little programs that extend your websites functionality. Each element provides that "extra" feature to your visitor and staff. accuBenefits comes standard with the following and we are continuously updating and adding elements to the accuBenefits program.

- ❖ Insurance Online Quoting Forms
- ❖ Maps and Directions
- ❖ Mobile Phone Access to Submissions
- ❖ Staff Directory
- ❖ Glossary & Insurance Resources
- ❖ Live Chat Feature
- ❖ Policy Management System
- ❖ Frequently Asked Questions

We guarantee one new element per quarter, chosen by you, our clients, enabling us to continue to provide the solutions *your* business needs, not the elements we think you need.

SERVICES INCLUDED

Technical Support
Installation and Setup
Maintenance
Application Support
